## KDOT, City of Topeka invites public to community open house for Polk-Quincy Viaduct project

The Kansas Department of Transportation, in collaboration with the City of Topeka and project partners, will host a community open house for the I-70/Polk-Quincy Viaduct replacement project. The event will be held on Thursday, May 4, from 5 p.m. to 7 p.m. at the Cyrus K. Holliday Building, 620 SE Madison Street, in Topeka.

The public is encouraged to attend and learn the latest information related to the viaduct's replacement project, including design plans, anticipated timelines, and upcoming utility relocation work.

The event will be an open house format with various informational booths. Project members from KDOT and the City of Topeka will be available to answer questions. A formal presentation will not occur.

Materials presented at the open house will also be available on the project website at [www.polkquincy.org](http://www.polkquincy.org).

The Polk-Quincy Viaduct project will enhance safety and improve the corridor by expanding I-70 from four lanes to six lanes from MacVicar Avenue to Topeka Boulevard, replacing the existing viaduct, and flattening the curve on I-70 near Third Street.

Construction on the I-70/Polk-Quincy Viaduct project is expected to begin in early 2025. City utility relocations are set to begin this summer.
